## Who We Are

Professionals with decades of experience in education, science, business, educational and legislative advocacy and more who all came to MAGE after seeing the challenges of gifted children who needed more from their educational experiences first hand.

Together we provide support and community for families embarking on their journey into meeting the needs of their gifted kids. Through professional training and “been there, done that” experience, we support both families as well as educational institutions seeking methods to better meet the needs of their students.

**"We recognize the need to provide every student, regardless of cultural or socio-economic background, the opportunity to be educated in a manner that is fully commensurate with their ability or talent without restriction."**

## MAGE MISSION
